

## S-315YM

**Ideal Side Sealing Made By Stainless Steel**

### Description

**AC motors equipped with traditional chain type and cams transmission, easy operation, low maintenance cost. Side sealing design and made by stainless steel suitable for special environment requirement and applications such as meat, marine or dairy industrials.**

### Features

- Mechanical tension control
- Motor shut off for energy saving
- Easy operation, less maintenance
- Reliable microprocessor PCB control

### Options

- Carbon steel housing.(S-315Y)

### Specification

Cycle Time 2.5 sec / strap	
Tension Range 15~45kgs	
Strap Width 9,12,15.5mm adjustment	
Sealing Method Heating element	
Reel Inside Diameter 200, 230, 280mm specified	
Power Supply 110/ 220/ 230/ 240V, 50/60Hz, 1PH Table Height 780mm	
Power Consumption 0.4kw	
Machine Dimension L880 x W675 x H1625	
Machine Weight 120 kgs	
*Specification subject to change without notice
