

SK20 Semi-Automatic Carton Sealers

RELIABLE MACHINE
Strong frame with
dual masts structure

TIME SAVING SOLUTION
Fast removable
top taping head

EASY CONTROL
Fast plug&play
installation and reliable
power control

MODERN DESIGN
Perfect control by side guides, upper
idle wheels and 4 top+bottom belts

The new case sealer SK20 represents the perfect solution for your semi-automatic packaging line.

The concept, with the double top and bottom drive belts, allows the control of the carton box also during the incoming process before sealing.

Thanks to the robust dual masts frame and to the primary level of the machine components, the historical reliability of SIAT machines is fully guaranteed.

The easy plug&play mode and the fast-removable taping head help the customer to save time efficiently during set-up and maintenance operations.
